MODELS 3560

Vinyl garage doors that resist dents and rust

- **Bonded steel, polyurethane and vinyl** provide you with incredible strength, impressive sound absorption and energy efficiency with a U-factor¹  of 0.24 and an R-value² of 11.75.
- **Wood grain texture** for the timeless look of freshly painted hardwood. (Standard Panel only).
- **Through-and-through color PVC construction** means the color goes all the way through the exterior vinyl skin so scratches are minimized.
- **UV-resistant resin** contains special polymers that protect your door from harmful ultraviolet rays.
- **Twin structural struts** of 22-gauge steel C-channels run the full length of each panel and are anchored to interior steel stiles for strength.
- Backed by a **15-Year Limited warranty**.*

1 - U-factor is independently tested and verified per ANSI/DASMA 105 using solid doors and specific product sizes.

2 - Overhead Door Corporation uses a calculated door section R-value for our insulated doors.

* Warranties vary by model and are available upon request.

See full text of warranty for details.

Overhead Door™ Brand participates in the DASMA Thermal Performance Verification Program. The program verifies the thermal performance of sectional garage doors. The lower the U-factor rating, the better the thermal performance.

Symbol indicates verified U-factor rating in accordance with the DASMA Thermal Performance Verification Program.
